Skills

C#, Visual Basic, ASP.NET, PHP, Java, Javascript, T-SQL, MySQL, MariaDB, SAP, Crystal Reports, SSIS, SSRS, Stimulsoft, Web Services, Bootstrap, jQuery, MVC, AWS, Azure, Python, Git

Experience

ECI Software Solutions / Senior Developer

June 2018 - Present, Sharonville, OH

Gathered requirements from customers and created custom utilities and reports in the C# MVC product. Also, interpreted VB6 code to upgrade customer's custom utilities and report to the new product written in a C# MVC environment. Other duties include creating, improving, and maintaining several departmental tools that save hours while creating and maintaining projects. I was also tasked with interviewing and training new employees on the processes we followed and project architecture.

Fifth Third Bank / Senior Application Developer

November 2017 - June 2018, Cincinnati, OH

Analyzed and developed new processes and improved upon old processes for the call center's in house reporting and analytics application that utilized SSIS, SSRS, and was written in VB.Net and a Microsoft SQL backend.

M. Bohlke Veneer Corp. / Software Engineer

May 2014 - November 2017, Fairfield, OH

Updated a variety of in-house applications from VB6 and VB.Net to ASP.NET and analyzed and developed new applications for customer relations and sales processes. Developed a billing importer to import via American Express and US Bank and input into SAP. Maintained, updated, and customized the front facing WordPress site. Also, performed front end support and server maintenance.

Tracker Products / Software Developer

November 2011 - May 2014, Erlanger, KY

Web, desktop, and database developer (VB.Net, Classic ASP, ASP.NET, T-SQL) using Team Foundation server to organize and manage our codebase. I also administered our AWS instances using S3, EC2, and Route53. I built a custom report engine that had assignable custom fields to handle many different clients needs. Also, provided phone and email

technical support. Built and maintained web services that allowed clients to interface with data transfer.

Awards

Crave Greatness Standing Ovation

April 2021, ECI Software Solutions

Award was received for the following reasons.

1. He has expert web development skills, and shares these skills with everyone on the team.
2. He has expert SQL Server operation skills, and shares these skills with everyone on the team.
3. Manages our virtual machines. This wasn't his job specifically, but he has "stepped up" and become the expert. Has created documentation to help others navigate the tricky areas.
4. Manages our GIT repositories. This wasn't his job specifically, but he has "stepped up" and become the expert. Has created training videos to help others navigate the tricky areas.
5. Always happy to answer questions about any of these things, and other things.

Education

Cincinnati State

August 2009 - May 2014, Cincinnati, OH

I attended here as a part time student while working a full time job to support myself in the Associates of Sciences degree for Software Engineering Technology.
